

The Power of Partnerships

“Revolutions don’t wait for legislation. They emerge from what people do at ground level. Education doesn’t happen in committee rooms or in the rhetoric of politicians. It’s what goes on between learners and teachers in actual schools.”

Ken Robinson

We know we are in a great school when the following four things happen

- Teachers talk about teaching and learning;
- Teachers observe each other's practice;
- Teachers plan, organise, deliver, monitor and evaluate work together;
- Teachers teach each other.

Judith Little - The Power of Organisational Setting

If you want to travel fast walk alone...
If you want to travel far walk together

Chinese Proverb

When the winds of
change blow some of us
build walls to protect
ourselves, some build
windmills

Chinese proverb

“Change comes from small initiatives which work, initiatives that when initiated become the fashion. We cannot wait for great visions from great leaders, for they are in short supply at the end of history. Its up to us to light our own small fires in the darkness.”

Charles Handy - The Empty Raincoat

This is your time

**This is your time,
For standing up to be counted,
For being yourself,
For becoming the sum total of your life,
For finding courage,
For finding your voice,
For leading,
Because you are needed now.
This is your time.**
